GRUPA ŁUKASIUK POLSKA

LARGE SCALE TENTS

ABOUT US

WHO WE ARE ?

We are a family owned business, entirely based on Polish capital. Our expertise covers prefabricated structures and services associated with erecting steel frame large scale tents. We only use top quality materials to guarantee excellent acoustic and thermal parameters as well as trouble free operation subject to minimal service costs. We respect ethical principles, strive to achieve customer satisfaction and user convenience. We meet our standards through professionalism, creative passion, efficiency as well as partner based relations with staff, suppliers and subcontractors. We provide comprehensive design, prefabrication of structures, construction logistics management, supply, assembly as well as final acceptance services.

01 CLASSIC

— A prefabricated large scale uninsulated tent, framing: modular steel primary and secondary, framing anti-corrosion protection: hot dip galvanising, roof cladding: single PVC tarp attached using fabric straps, wall cladding: single PVC tarp fastened using steel tensioners.

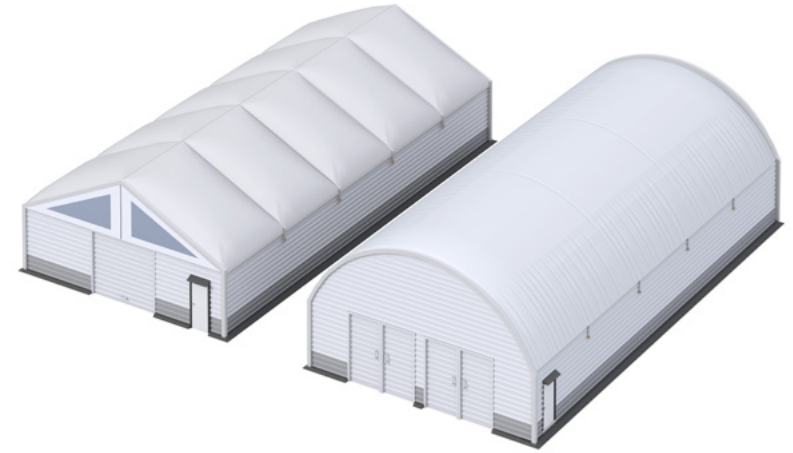

02 CLASSIC+

— A prefabricated large scale uninsulated tent, framing: modular steel primary and secondary, framing anti-corrosion protection: hot dip galvanising, roof cladding: single PVS tarp attached using fabric straps, wall cladding: corrugated sheets fastened using self-drilling steel screws.

03

ANTI DRIP

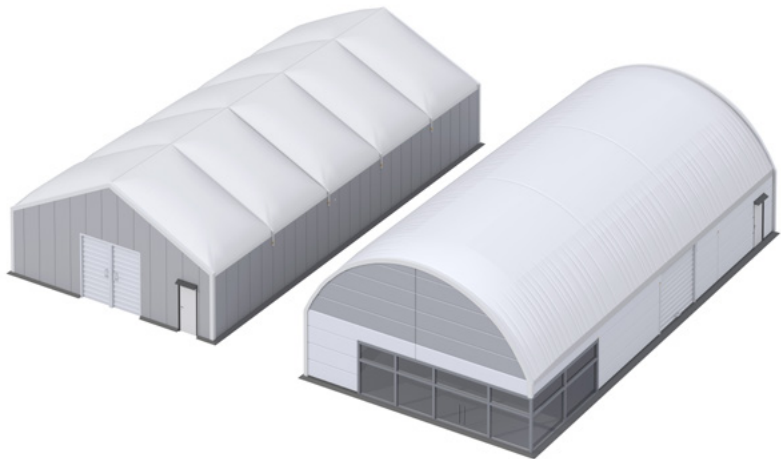

— A prefabricated large scale uninsulated tent with anti-condensation protection, framing: modular steel primary and secondary, framing anti-corrosion protection: hot dip galvanising, roof cladding: double pneumatic PVC tarp attached using fabric straps, wall cladding: corrugated sheets fastened using self-drilling steel screws.

04

THERMO

— A prefabricated large scale insulated tent with anti-condensation protection, framing: modular steel primary and secondary, framing anti-corrosion protection: hot dip galvanising, roof cladding: double pneumatic PVC tarp attached using fabric straps, wall cladding: composite panels fastened using self-drilling steel screws.

PORTFOLIO

OUR SERVICES

WHAT WE SPECIALIZE IN ?

We supply large scale steel framework tents, available in all structural or functional configurations and precisely tailored to the specific needs of particular customers. A range of accessories is available, through which the tents can be adapted to match the needs of given sectors of the economy; our portfolio includes completed warehousing, production, service, event, sports and agricultural large-scale tents. We also provide a wealth of advice on the use of prototype materials.
